

Course Description	
Course Code	YZ 404
Course Name	INTERNSHIP II
Prerequisite Courses	
Language of the Course	
Course Coordinator	
Instructor(s)	
Course Assistants	
The aim of the course	The objective of the internship period is to provide students the opportunity to test their interest in a particular career before permanent commitments are made, to help the student develop skills in the application of theory to practical work situations, to develop skills and techniques directly applicable to their careers, to aid students in adjusting from academic environment to full-time employment, and to increase student s sense of responsibility
Course Content	The practical placement gives the student the opportunity to transform the theoretical knowledge obtained during the educational program into the work environment and hence includes all kinds of work-related activities. Students are required to spend 24 days in any field related to the area of interest where they can practice their profession. The work carried out is compiled in a detailed manner on daily basis in the form of a report which is then approved by the chief staff in the place of work and then submitted to the academic staff responsible for the evaluation and grading of the internship reports.

Weekly Course Content	
Week 1	Carrying out the work given by the chief staff in the working place selected.
Week 2	Carrying out the work given by the chief staff in the working place selected.
Week 3	Carrying out the work given by the chief staff in the working place selected.
Week 4	Carrying out the work given by the chief staff in the working place selected.
Week 5	Carrying out the work given by the chief staff in the working place selected.
Week 6	Carrying out the work given by the chief staff in the working place selected.
Week 7	Reporting
Week 8	Reporting
Week 9	-
Week 10	-
Week 11	-
Week12	-
Week 13	-
Week 14	-

Course Learning Outcomes	
1	Able to assess practical implications of theoretical knowledge acquired at the university.
2	Able to reach area-specific information sources by using various databases.
3	Able to develop problem sol skill develop problem solving skills and apply them in a range of areas related to the professions and apply them in a range of areas related to the profession.
4	Able to produce alternatives individually or collectively in order to solve problems.
5	Able to present obtained information during internship period as a formal report.
6	Able to develop a strong basis concerning legal, professional and ethical framework relevant to working area at the end of internship period.

Contribution of the Course to Program Qualifications			Contribution Level
01	The student will have the ability to apply analytical approach, mathematics and science knowledge in software and engineering issues.		4
02	The student will have the ability to identify, define, formulate and solve a problem in software and computer systems.		4
03	The student will have gains scientific research skills in software and engineering problems, has the ability to design a system, part or process.		3
04	The student will have the ability to use the design capability, techniques and tools required for engineering applications.		4
05	The student will have the ability to design, implement and interpret experimental work and software projects by analyzing the results.		4
06	The student will have the ability to work between disciplines and teamwork.		4
07	The student will have the ability to work in international environments and adapt to different cultures.		4
08	The student will have verbal and written communication skills in Turkish and English.		4
09	The student will have the awareness of the necessity of lifelong learning and the ability to realize it.		3
10	The student will gain knowledge of legal issues with the awareness of professional and ethical responsibility.		5
11	The student will have managerial skills (leadership, organization, time and risk management, quality awareness, efficiency, etc.).		3
12	The student will have the ability to participate in social activities, to acquire regular sports habits and to use time in the best way.		5
13	The student will have the ability to find unusual ways and produce projects.		4
14	The student will have professional self-confidence, be an entrepreneur and take initiative.		3
15	It is sensitive about the problems of the age and looks after the national interests.		4

ECTS WORKLOAD			
	Number	Duration (hours)	Number*Duration
Face to face education	20	6	120
Out-of-class study time (pre-study, reinforcement)	0	0	0
Homeworks	0	0	0
Presentation / Seminar preparation	4	5	20
Quizzes	0	0	0
Preparation for midterm exams	0	0	0
midterm exams	0	0	0
Project (Semester assignment)	0	0	0
Lab	0	0	0
field work	0	0	0
Preparation for the final exam	0	0	0
Semester final exam	0	0	0
Research	4	10	40
TOTAL WORKLOAD			180
ECTS			6

Evaluation		
SEMESTER EVALUATION	Number	Contribution Percentage
Midterm		0
Quiz		0
Homework		1
SEMESTER TOTAL		100
Contribution rate of mid-term evaluations to success		100

Contribution rate of the final exam to success		0
